

The FCC should not implement any proposal that would lessen
Indiana's Telephone Privacy law protections.
Indiana's Telephone Privacy law has improved my time at home.
I used to receive 3 to 4 calls per day, sometimes at 1:00am - 5:00am
while we were sleeping (only to be hung up on) I had to go up to the
sheriff's office to file a formal complaint in order for AT&T to
investigate who was doing this. When I found out it was a
computerized solicitation for the local newspaper I was livid.
As a result, I will not do business with them.
Since my phone number has been added to the no call list I only receive 1 to 2
calls per week, and none of them while I'm asleep.
Do not mess with Indiana's Telephone Privacy laws!
Sincerely,
Michael Young
